## Summary

---

"I can craft user-friendly websites that look great and work seamlessly on any device, from phones to computers. I'm skilled at building dynamic web applications that can update information without needing a full page refresh. I prioritize web accessibility to ensure everyone can use my creations.

I can write clean and organized website code. Most importantly, I'm passionate about staying up-to-date with the latest technologies to deliver the best possible web solutions."

## Skills

---

- **Frontend & Frameworks:** Html, HTML-5, CSS, Javascript, BootStrap, React.Js, Express Js, Node js, jsx.
- **Software & tools:** Git/GitHub, Visual Studio Code, AI.
- **Soft-skills:** Team work, management.
- **Other-skills:** Ms word, Ms excel, Powerpoint, UI, internet browsing, Basic computer knowledge

## Projects

---

### Food Recipe App – React Js | [project-link](#)

- Developed a responsive food recipe application using React.js, integrated with the Spoonacular API for dynamic content delivery. Engineered a user-friendly interface that allows users to search for recipes, view detailed recipe cards with key information like cooking time and serving size, and access full recipe details. Leveraged modern front-end development practices to ensure a seamless and intuitive user experience. This project demonstrates proficiency in API integration, state management, and building interactive, data-driven web applications.

### Music Player - Html/CSS/JS | [project-link](#)

- This project is a web-based music player built with HTML, CSS, and JavaScript, featuring a modern, responsive interface for browsing and controlling songs easily.
- The player includes a searchable song library, a "Now Playing" section with album art, song details, and playback controls such as play, pause, next, previous, shuffle, repeat, volume, and a progress bar.
- Additional highlights include an Albums & Artists section for easy navigation, an attractive UI with smooth transitions and interactive elements, and a responsive layout for desktop and mobile.

### Portfolio - React Js | [project-link](#)

- This portfolio website is a full-stack project built with the MERN stack. It was meticulously crafted to showcase my skills in modern web development, utilizing React.js for a dynamic front end and Node.js with Express.js to power the back end. The site's data is seamlessly managed by a MongoDB database. This project is a comprehensive reflection of my expertise in building robust applications from the ground up, combining foundational knowledge of HTML, CSS, and JavaScript with the power of modern frameworks and libraries.

## Experience

---

### The Hiring Company

#### Tele calling

- Excellent interpersonal, research, and record-keeping skills.

## Education

---

### Jiwaji University, Gwalior

Masters of Computer and Applications

2024 – 2026

### Jiwaji University, Gwalior

Bachelor of Computer Applications

2021 – 2024
